

ENRA TEXTILE COMPANY PROFILE

COMPANY PROFILE

Enra Textile was founded in 1995 in İzmir/Turkey as a ready-made garment manufacturer and exporter. It has been exporting to Germany, UK, Italy, Austria, Sweden and Switzerland since 2000. Its production consists of 60% of women, 30% men and 10% kids clothing.

Currently Enra Textile services in its new 4500m² building with 200 blue, 25 white-collar staff, 60 machines including 4 cutting table and 200.000 loading capacity as monthly.

Enra Textile goes forward with the company's principles of being open to innovation and keep pace with the latest technology.

Our company offers to the customers with our own design and collection team. Our membership of WGSN and Stylesight are leading us about this.

Pattern making and grading are made at Gerber system in our sample and pattern department.

After checking the quality, the fabrics are cut with Gerber system and are controlled the quality of cutting pieces.

Additionally the goods are checked their quality at finishing process in the boxes at randomly by our QC.

The company, which is working on jersey production and jersey production-weaving group, has 5 contract manufacturer for producing out of factory.

To be able to produce textiles according to the developments in the textile sector and simultaneously to remain competitive on global markets, Enra Textile continuously realized investments and expanded to a vertically integrated textile company.

Our company policy includes reliable and effective service, in time production and delivery as well as high flexibility and increase the quality standards of the production day by day.
